

PHOTOJOURNALISM II

5.27.2016

WITH STUDENT LEARNING OUTCOMES

Photojournalism II: Color (PH226, 4 credits)

Course Description:

In this intermediate photojournalism course the fundamentals of color theory are applied to photojournalistic imagery. As in beginning photojournalism classes, students take pictures for a wide variety of stories and learn to use color as an expressive tool. Examples from current and historical photographers are used to illustrate successful examples of the ideas explored in assignments. Group and individual critiques focus on specific issues explored in assignments, content and craft. An extended portfolio-based project is a capstone project for the course.

Prerequisite: Photo I, Photojournalism I

Students will:

1. Identify color temperature of light and use color in a variety of forms as an expressive tool in color. (PC 1 2)
2. Use of appropriate digital techniques for image presentation. (PC 1 2)
3. Create a capstone project including a minimum of 16 images in a portfolio and in the form of a book or instructor approved format. (PC 1 2 4)
4. Research, communicate, and emulate a photojournalist's work using color photography (PC, 5)
